Index to volume 210
January to December 1982.

A
Advanced Technology of Process Design for producing High Quality Wire Rod and Bar, June 342
The Analysis of Steel in West Germany — Michael Fielder, Feb 91
Annual Review, Aug 456
Application of zirconia oxygen analysers in the iron and steel industry, by Sam Langridge, Oct 604
Automatic blast furnace top gas analysis, Dec 717
Automatic inspection of forging grade steel billets at Krupp Stahl, Dec 717
Avesta Jernverk — stainless steel versatility. Swedish feature, Dec 706

B
Blast furnace Instrument for Coke Moisture Measurement, by W. T. James, July 375
BBC in The Austrian & Swiss Steel Industry (Swiss & Austrian Steel), Feb 62
BISPA Annual Report, Mar 118
Bjorneborgs Jernverks — forging by the modern method, Dec 702
BSC Modernisation Projects — A review, May 222
BSC/BISPA Chemist's Conference celebrates 35th Anniversary, May 275
BSC Rotherham spearheads the drive for Quality — New generation billet caster produces special steels, June 305
BSC Strip Products Group — Port Talbot Works, July 393
Bofors enters a new generation of forging, July 388
Bofors-Kilsta — 30 years of forging. Swedish feature, Dec 704
Buyers' Guide to optical emission spectroscopy instrumentation, Sept 547
Buyers' Guide to X-ray spectrometry, Nov 642

C
Century Synonymous with Service, Jan 12
Clesid Serves Steelmaking, Jan 7
Present & Future of Coil Coating of Steel, Feb 88
Continuous casting technology — 4th International Congress review worldwide developments, June 316
Continuous casting and its technology for bars and wires at Sumitomo Metals — General aspects by Kiyoto Ushijima, Akinori Yoshida, Makoto Mizutani, Hiroaki Okajima, June 327
Comment, Jan 2
Comment — Chain cable making revived, Feb 50
Comment — Gas from coal, Mar 105
Comment — Let the robot do it, Apr 171
Comment — Improving standards, May 222
Comment — Biomass in the steelworks, June 305
Comment — Something for nothing, July 354
Comment — Fitness for purpose, Aug 446
Comment — Steelmaking as a career? Piping hot, Sept 514
Comment — A look outside: Stainless reputation, Oct 566
Comment — Pipes or tubes: keeping politics out of technology, Nov 623
Comment — Shortage of skill?: Swedish steel, Dec 675
Computers and marketing in the steel industry (Annual review), Aug 496
Control and Instrumentation, Apr 193-201
Corby — Tubulars for the world by Jonathan Mitchell, Nov 652
The Cumbrian 'Redmen', Mar 145

D
Developments in stainless steel production by J C C Leach (Stainless Steel feature), Oct 577
DSRM — £5M for the Future by J M Mitchell, Jan 35

E
Ecology and energy savings in steelworks with electric arc furnaces. Dr Ing L Babos (Annual review), Aug 460
Economist Intelligence unit EIU special report no 128 by M F Dowding, Oct 607
Efficient use of resources in the iron and steel industry some remarks by Jacques Astier (Annual review), Aug 471
Efficient use of resources for increased profitability by Keith Gale (Annual review), Aug 486
Electric resistance weld (ERW) tubes by J E Roberts, Sept 530
Energy saving in blast furnace operation Tomio Haru and Junsaku Kurihara, July 369
ENERGY
A mandate to conserve energy — Furnaces, Mar 114
Energy savings in the steel mill (Annual review), Aug 493
Engelsbergs Ironworks — Swedish steel in retrospect, Dec 714

F
Fagersta — control and reliability. Swedish feature, Dec 692
Fifty years of service to the Metals Industry, July 380
Finishing equipment for oil country goods by Malcolm Roberts (Pipe and Tube feature), Sept 533
Filtering equipment from Germany, Jan 8

G
General Services Serving Steelmaking, Jan 7

H
High Gradient Magnetic Filtration for Water Treatment in the Iron and Steel Industries — Mats Carlsson, Jan 13
An Historical Review — The production of wide mild steel sheet and strip with particular reference to the cold reduction process by Harold Edwards
Part 1, Apr 205
Part 2, May 277
Part 3, Nov 631
Horizontal continuous casting — Interim review, June 320
Hot rolled steel sleepers manufactured by Kawasaki, Apr 190
Hot seamless tube making advances in by Dipl-Ing K Oberem (Pipe and Tube feature), Sept 527
How the American Hot-Pressed Brick, Extruded-Big-Beam Carbon Hearth Designs have eliminated Salamander Cutback and Hazardous Breakouts, by J S Shinko and J H Barry, July 363

I
IISI — Sixteenth annual conference held in Tokyo, Dec 679
Improved finishing of special steels by grinding by Anthony H Seeley (Annual review), Aug 478
Irish Steel — A special technical review by Rodney Pitt, Apr S1-S36
Iron ore and the demand for crude steel, Nov 644

J
Japan — Steel industry's Capital outlay will exceed Y1 Trillion by Stuart Griffin, Mar 112

K
Klement Gottwald — 30 years of the new metallurgical works, Oct 601

L
LKAB — Swedish feature, Dec 700
Los Angeles may become base of Japan-USA-Brazil Project. Stuart Griffin, July 362
Low alloy steels to resist oxidation by Dr Tony Smith, June 339

M
Materials Handling and Transportation in the Steelworks, Jan 16
Measurement of the force exerted by the rollers of a steel mill by Philip Belsham, May 280
Mecana — An expanding Company (Swiss & Austrian Steel), Feb 63
Materials Handling and Transportation in the Steelworks Part 2
A Mechanical Handling Case-History (Prosaw Ltd), Feb 69
A cost saving case history, Feb 71
Mill Scale Effluent Treatment — New Ways of by Nils Albertsson, Bo Forsell, Mikael Wallin, Mar 140

N
NKK invents new rail-welding machine for longer rails, Apr 190

O
The use of Optical emission spectroscopy in quality control and assurance in the steel industry by K J Paul, Sept 542
Optical emission spectroscopy instrumentation — buyers' guide, Sept 547

P
Pipe and Tube feature, Sept 527
Plasma Metallurgical Processing. Dr C P Heanley, Mr J Monk, Mr C Moore, Feb 73
Pollution Control at Steelworks, Jan 15

Q

R
Rail production at Krupp Stahl AG by H Heller, Apr 184
RH Treatment — The Third Decade, Feb 87
Role of equipment suppliers in modern steelworks by W K V Gale, Sept 538

S
Sandvik — Steel for watches to nuclear reactors, Dec 685
Service Centre, Jan 38
Service Centre, Feb 92
Service Centre, Mar 150
Service Centre, Apr 209
Service Centre, May 284
Service Centre, June 346
Service Centre, July 417
Service Centre, Aug 497
Service Centre, Sept 552
Service Centre, Oct 611
Service Centre, Nov 663
SKF — war against friction. Swedish feature, Dec 689
The Soviet Steel Industry Part 3
The contours of the Social Development of the Zaporozhye Steel Plant, Feb 81

Cherepovets — Tomorrow's Leader of Soviet Metallurgy, Feb 82
Ukranian Metal-makers are Tackling the problem of the Quality of Metal, Feb 85
Kurk Anomaly, Feb 85
Spiral looper — an endless accumulator for strip, Nov 637
SSAB — Swedens largest steelmaker. Swedish feature, Dec 696
Steelmaking Processes, Feb 66
Stein Atkinson Stordy Ltd — Thermal process engineers, Nov 651
Swiss and Austrian Steel
Structural changes in the iron and steel industry, Feb 58
An overview of the Swiss steel industry, Feb 60
BBC in the Austrian and Swiss steel industry, Feb 62
Voest-Alpine — An international group recognised the world over, Feb 64
Mecana — An Expanding Company, Feb 63
The Swiss Steel Industry — an overview — Victor Bader (Swiss and Austrian Steel), Feb 60
Stainless Steel feature, Oct 577
Stainless steel production in Western Europe by Peter Cranfield (Stainless Steel feature), Oct 585
Structural Changes in the Iron and Steel Industry by Heribert Apfalter (Swiss and Austrian Steel), Feb 58
Swedish steel — playing a major role in the national economy, Dec 684

T
TRM — The Modern Re-roller, Jonathan Mitchell, July 383
Track Products — The '80s and beyond by Jonathan Mitchell, Apr 180
Tube Asia '82 — World Trade Centre, Singapore (Pipe and Tube feature), Sept 536
Tube press squeezes out extra benefits — Application study, Nov 648
Turnouts — What they are, why are they needed and how are they made by Grant Lyon Eagre, Apr 187

U
Uddeholm — three centuries of production. Swedish feature, Dec 709

V
Vacuum degassing processes for hydrogen removal and their industrial significance, G. Stolte and P Binder (Annual Review), Aug 456
Voest-Alpine — An International Group Recognised the World Over (Swiss and Austrian Steel), Feb 64

W
Waste recycling in the Japanese steel industry (Annual review), Aug 490
Water and energy management in the steel industry by Dr David Owen (Annual review), Aug 484

XY
X-ray inspection means better control by J B Lee-Frampton, May 265
X-ray spectrometry — What's new by Ing Peter van der Burg, Nov 639

POSITION WANTED

Position sought for Patternshop Foreman and Methods Engineer.

Preferably in Steel Foundry.

However over 20 years of varied experience including Thermoplastics for the Automobile and Aerospace Industries.
